EXPERIENCE

Web Development & Design Intern

BYTESITE

November 2023 - January 2024

- Led the development of BYTESITE's official website, contributing to its establishment.
- Initiated student work-from-home opportunities for experiential learning and project creation.
- Played a crucial role in implementing mentorship programs for student development.
- Contributed significantly to the growth and success of BYTESITE.

PROJECTS

Instagram Clone:

Visit [Visit](#)

- Developed a full-stack Instagram clone using Node.js, Passport.js, EJS files, and MongoDB.
- Implemented secure user authentication and authorization using Passport.js.
- Utilized Tailwind CSS for a responsive and modern user interface.
- Hosted the project, enabling direct browser access to showcase functionality.

Become a Guardian Website:

Visit [Visit](#)

- Created the frontend for an award-winning website, "Become a Guardian," focusing on a clean and user-friendly design.
- Utilized HTML, CSS, and JavaScript to introduce interactive features, ensuring a smooth user experience.
- Implemented responsive design through media queries, ensuring cross-browser compatibility for optimal usability.
- Demonstrated proficiency in frontend development and adherence to design principles.

RESPONSIBILITIES

Speakers and Skills Development Club

- Orchestrated college-wide events and annual Samrat Utsav, enhancing students' skills and personal growth.
- Led intra-club initiatives to bolster public speaking, stage performance, and reduce stage fear.
- Developed communication and teamwork skills, fostering a supportive environment for personal growth.
